2. Property currently exists as two parcels (59.15-2-7 and 59.15-2-8). Property must be combined into one parcel prior to the issuance of building permits. See Town Assessor for paperwork.
3. Town acknowledges that highway reconstruction work will potentially delay improvements to the east end of the site until 2019 when NYSDOT work is anticipated to be completed.

DPW Comments from March 21, 2017

4. Provide Short Environmental Assessment Form.
5. Two handicap parking spaces are required. Applicant may wish to share access aisle between spots and situate aisle in front of doorway for ease of access to the building from the parking lot.
6. Property currently exists as two parcels (59.15-2-7 and 59.15-2-8). Property must be combined into one parcel prior to the issuance of building permits. See Town Assessor for paperwork.
7. Dimensions should be provided for the following:
 - Lot
 - Parking Spaces (9' x 18')
 - Sidewalks and walkways along building.
8. Identify size/type of proposed landscaping.
9. Site drainage should be evaluated given the proposed work on the eastern end of the property.
10. Dumpster enclosure should be evaluated and upgraded. If tenants are proposed to be food service, odors/debris could pose a problem with adjoining residence in close proximity to current location.
11. NYSDOT Hamburg Street project will begin in 2017. New utilities are proposed (water main, sanitary sewer service, natural gas). Owner should coordinate redevelopment of site with utility work.
12. Town acknowledges that highway reconstruction work will potentially delay improvements to the east end of the site until 2019 when NYSDOT work is completed.

SEQR Requirement: 6 NYCRR 617 Unlisted Action. Rotterdam Planning Commission declared lead agency on March 21, 2017. A Draft Negative Declaration has been prepared by the Town Planner and is attached for your consideration.

RECOMMENDATION

Receipt of zoning referral is acknowledged on March 28, 2017. Please be advised that the undersigned Commissioner of Economic Development and Planning of the County of Schenectady (having under the Schenectady County Charter the powers and duties of a County Planning Board) has reviewed the proposed action stated on the opposite side of this form and makes the following recommendations:

- * Approve of the proposal.
- Defer to local consideration (No significant county-wide or inter-community impact)
- Modify/ Conditionally Approve.** Conditions:
NYS DOT approval.

Advisory Note:

Disapprove. Reason:

* A recommendation of approval should not be interpreted that the County has reviewed all local concerns and/or endorses the project; rather the proposed action has met certain County considerations.

Section 239-m of the general Municipal Law requires that within 30 days after final action, the referring body shall file a report of the final action it has taken with the Schenectady County Department of Economic Development and Planning. A referring body which acts contrary to a recommendation of modification or disapproval of a proposed action shall set forth the reasons for the contrary action in such report.

Subject: DEC Lead Agency Repsonse; 2617 Hamburg St. (T) Rotterdam, (Co) Schenectady

Hi Peter,

This is a response to your correspondence dated March 22, 2017, regarding lead agency coordination for changes to an existing retail building located at 2617 Hamburg St. in the Town of Rotterdam, under Article 8 State Environmental Quality Review (SEQR) of the Environmental Conservation Law and 6 NYCRR Part 617.

Based on the information provided, and our jurisdictional review, DEC has no objection to the Town of Rotterdam Planning Commission assuming lead agency status for this action. DEC does not wish to be listed as an involved party, as there are no jurisdictional resources on site. This determination is based on the assumption that existing connections to municipal water services are already established. If a new connection is necessary, please contact Jamie Malcolm in Division of Water 357-2385 for more information.

Thank you and please feel free to contact me with additional questions.

Best,
Kate Kornak

NEGATIVE DECLARATION
Notice of Determination of Non-Significance

Date: May 16, 2017

Schenectady, NY 12303

Location: 2617 Curry Road
Schenectady, NY 12303

Tax Map Number(s): 59.15-2-7 and 59.15-2-8 (combined)

Zoning: Retail Business (B-1) Zoning District.

Action: Site Plan/Special Use Permit to allow four (4) tenant spaces in former ±15,000 square foot CVS Pharmacy: Tenant Space #1 = 2,500 square feet, Tenant Space #2 = 2,500 square feet, Tenant Space #3 = 2,500 square feet and Tenant Space #4 = 7,500 square feet (Tri Valley Plumbing & Heating).

Reasons Supporting This Determination:

(See 617.7(a)-(c) for requirements of this determination)

This project was conducted as a SEQR coordinated review. The applicant has supplied an Environmental Assessment Form and the Planning Commission has or has caused to complete Part 2 of this checklist.

The action is for Site Plan Approval and Special Use Permit to allow four (4) tenant spaces in former ±15,000 square foot CVS Pharmacy: Tenant Space #1 = 2,500 square feet, Tenant Space #2 = 2,500 square feet, Tenant Space #3 = 2,500 square feet and Tenant Space #4 = 7,500 square feet (Tri Valley Plumbing & Heating).

This property formerly contained a single tenant (CVS Pharmacy) which has been closed for several years and has been vacant. Redevelopment of this property is being coordinated with the current NYSDOT project to widen Hamburg Street and replace/ install curbing, sidewalks, water line replacement, utility relocation/replacement and the installation of sanitary sewers. The NYSDOT project will eliminate the current parking spaces along Hamburg Street and vehicles will no longer back out into the State ROW.

After a review of the application materials, Environmental Assessment Form, and comments received on this proposal, the Town Board of the Town of Rotterdam has determined that this proposal will not have a significant adverse impact on the environment.

The Planning Commission has considered the following criteria to determine if this proposal has significant adverse impacts on the environment:

- (i) a substantial adverse change in existing air quality, ground or surface water quality or quantity, traffic or noise levels; a substantial increase in solid waste production; a substantial increase in potential for erosion, flooding, leaching or drainage problems;
- (ii) the removal or destruction of large quantities of vegetation or fauna; substantial interference with the movement of any resident or migratory fish or wildlife species; impacts on a significant habitat area; substantial adverse impacts on a threatened or endangered species of animal or plant, or the habitat of such a species; or other significant adverse impacts to natural resources;
- (iii) the impairment of the environmental characteristics of a Critical Environmental Area.
- (iv) the creation of a material conflict with a community's current plans or goals as officially approved or adopted;
- (v) the impairment of the character or quality of important historical, archaeological, architectural, or aesthetic resources or of existing community or neighborhood character;
- (vi) a major change in the use of either the quantity or type of energy;
- (vii) the creation of a hazard to human health;
- (viii) a substantial change in the use, or intensity of use, of land including agricultural, open space or recreational resources, or in its capacity to support existing uses;
- (ix) the encouraging or attracting of a large number of people to a place or places for more than a few days, compared to the number of people who would come to such place absent the action;

- (x) the creation of a material demand for other actions that would result in one of the above consequences;
- (xi) changes in two or more elements of the environment, no one of which has a significant impact on the environment, but when considered together result in a substantial adverse impact on the environment; or
- (xii) two or more related actions undertaken, funded or approved by an agency, none of which has or would have a significant impact on the environment, but when considered cumulatively would meet one or more of the criteria in this subdivision.

The Planning Commission has also considered the reasonably related long-term, short-term, direct, indirect and cumulative impacts, including other simultaneous or subsequent actions, which are:

- (i) included in any long-range plan of which the action under consideration is a part;
 - (ii) likely to be undertaken as a result thereof; or
 - (iii) dependent thereon.
- (3) The significance of a likely consequence (i.e., whether it is material, substantial, large or important) has been assessed in connection with:
- (i) its setting (e.g., urban or rural);
 - (ii) its probability of occurrence;
 - (iii) its duration;
 - (iv) its irreversibility;
 - (v) its geographic scope;
 - (vi) its magnitude; and
 - (vii) the number of people affected

The environmental effects of the above described action were discussed at the Planning Commission Public Meeting held on May 16, 2017 at the Rotterdam Town Hall, 1100 Sunrise Boulevard, Rotterdam, NY 12306. Adoption of this negative declaration was moved by XXXXXX, seconded by XXXXXXXXXXXXX, and approved by the Rotterdam Planning Commission.

Short Environmental Assessment Form Part 3 Determination of Significance

For every question in Part 2 that was answered "moderate to large impact may occur", or if there is a need to explain why a particular element of the proposed action may or will not result in a significant adverse environmental impact, please complete Part 3. Part 3 should, in sufficient detail, identify the impact, including any measures or design elements that have been included by the project sponsor to avoid or reduce impacts. Part 3 should also explain how the lead agency determined that the impact may or will not be significant. Each potential impact should be assessed considering its setting, probability of occurring, duration, irreversibility, geographic scope and magnitude. Also consider the potential for short-term, long-term and cumulative impacts.

- Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action may result in one or more potentially large or significant adverse impacts and an environmental impact statement is required.
- Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action will not result in any significant adverse environmental impacts.
