

## Senior Center Update: March 12, 2021

Since our Ribbon Cutting Ceremony on October 2, 2020, we have been working diligently to complete further improvements throughout the center.

The original library has been completely remodeled from floor to ceiling. (above)

The lounge has a new kitchen, new appliances and new windows that allow for more natural light. (above and left)

The ceramics room has also been fitted with new windows, in addition to a new bathroom, next door. (above and right)

The Senior Center will remain closed to the public until the Governor's Executive Orders related to COVID have been lifted. For those groups that hold events at the Senior Center, you will be contacted when access becomes available. We will be providing updates on more improvements soon.
