

HAMBURG STREET CONSTRUCTION-RELATED DETOURS SEPTEMBER-DECEMBER 2017

As part of its effort to reconstruct Hamburg Street (State Route 146), the New York State Department of Transportation (NYSDOT) will need to limit Hamburg Street traffic to westbound cars only between Monday, September 25 and the end of 2017, with signed detours in force to ensure safe traffic circulation and a safe work environment.

In addition to detouring eastbound general (car) traffic, **detours for ALL trucks in BOTH directions (except for trucks making local deliveries) and EASTBOUND bicycles will be in force for all three stages of construction.** The detours are shown below.

All homes and businesses in the area will continue to be accessible during construction, and CDTA bus service, trash pickup, local deliveries and other services in the area will continue to be provided.

Emergency services and other local officials have been notified of this work.

There will be some night and weekend work necessary; NYSDOT will take measures to minimize noise and light spillover during nighttime construction periods.

For more information, please contact NYSDOT Engineer-in-Charge Paul Petalas at (518) 280-4058 or Paul.Petalas@dot.ny.gov.
