

Town of Rotterdam, New York

Verizon's FIOS service

We have recently had many requests inquiring about Verizon's FIOS service for the Town of Rotterdam.

In a recent conversation with David Lamendola of Verizon, Government Relations, Mr. Lamendola explained that Verizon FIOS currently operates in 183 municipalities in the state. Each of those franchise agreements has their own set of requirements and commitments. He explained that Verizon is currently focused on ensuring that they meet commitments in regard to those franchise requirements and are not actively seeking new agreements.

Please contact David Lamendola at david.j.lamendola@verizon.com with any future questions. Thank you.
